

Do you want to help us develop guidelines for the management of IgA vasculitis (HSP) in children?

The EATC4C are developing UK guidelines on the management of children with Immunoglobulin A vasculitis (also known as Henoch Schonlein Purpura).

We are looking for an ADULT NEPHROLOGIST to join the UK Immunoglobulin A vasculitis guidelines development group (UK IgAV GDG).

The role will involve attending a virtual (Zoom) meeting for 1 hour once a month for 12-18 months and your task will be to provide input and expertise to ensure the guideline meets the needs of the patients approaching adulthood.

To express an interest in taking on this exciting role please email eatc@liverpool.ac.uk before Friday 30th July 2021
